

Present: Norma, Kendsie, Dean, Martha, Mark, Sheila

1. Approval of today's agenda
2. Reports –
 - a. Update on assigning plots – Norma will pass the 10-20 odd plots that are free to Sheila by tomorrow.
 - b. Tilling – 2/3rds of garden has been tilled;
 - c. Update on use of combination lock – most gardeners seem to have embraced. Please make sure it is locked at night.
 - d. Summary of clean-up day – very successful
 - e. Newsletter update– in the works, will be mailed out/posted along with garden plot guide in one huge mailing.
 - f. FHNA Mother's day wildflower seed giveaway – wild flower seeds will be given away for mothers day along sidewalk at northwest corner of garden
 - g. Porta-potty was installed.
3. Discussion
 - a. Fixing the steep slope on the east driveway entrance – gravel appears to be working at least for a short term fix
 - b. Compost chipper/shredder – has been revived thanks to Mark. Will try to get through the compost that is there (slowly) and then take to Ace hardware to recondition
 - c. Remaining perennial plots – Lois' plot tentatively will go to Kendsie and family.
 - d. Tentative stakeout date and outline what needs to happen and who will do what. Tentative date is Thursday, May 13th, but depends on weather and timetable for tilling. We will need someone to write the flags out. Sheila agrees to ask Lois. In turn depends on list of assignments from Norma.
4. New business
 - sign on the east side needs to be moved as it is being blocked by Lew's yew (or forsythia). Will move on stakeout day.
